

K-LOVE is an extremely important radio station to both me and my family. It is the one station I can turn on and not be worried about what my daughter hears. They play wonderful uplifting music. They are positive and encouraging. They don't demean or ridicule people like other stations. The local community doesn't need another me-too station. They need a station that helps them feel good about themselves. I've gone into businesses that play K-LOVE and they are not just Christian businesses. They are businesses that recognize they can play great music without offending their patrons with vile language or sexual innuendos. K-LOVE is in the public interest because it caters to the whole family and brings some morality to the airwaves. Please don't let LPFM stations knock K-LOVE off the air. Thank you.
